Let's review!

Learning Outcome

Relate information about health and healthy habits in communicative situations.

Ask your partner:

- Do you know how to do any winter sports? Which ones?
- Do you want to try skiing? Why or why not?

Can Do Statements

- I can talk about travel and transportation.
- I can tell someone where something is located.
- I can talk about intentions and plans.

Let's Explore!

Sally writes a blog about her ski trip experience.

Instructions: Read the text aloud.

I loved my ski trip to the French Alps! Skiing is a very old sport. Archaeologists found very old skis on mountains in Sweden and Finland. They were about 4,500 years old. Skiing began as a sport in Norway, and then moved to other countries around the world. Learning to ski was not easy. My lesson focused on the basics. Here's some advice. Fasten the ski boots tightly. Don't forget to use goggles and gloves. Put on the skis carefully. When skiing, use your poles to keep your balance. The only thing I didn't learn was how to slow down or stop. Oops! Watch out, people below me! I'm above you and I can't stop! Next time, I'm going to take more than one lesson!
